PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience as an IT System Development & Administrator at Brother Industries Philippines Inc. Skilled in Active Directory management, Windows Server administration, network troubleshooting, remote support, and ticketing system operations. Also experienced in automating IT workflows using Python, Power Automate, and VBA, and maintaining enterprise platforms including SAP, MES, and EMS. Combines solid sysadmin fundamentals with a strong development background to deliver reliable, efficient IT infrastructure support.

PROFESSIONAL EXPERIENCE

Brother Industries Philippines Inc.

May 2025 – July 2026

IT System Maintenance & Development | Administration Department | Tanauan City,Batangas

- Administer and maintain enterprise systems including EMS, MES, SAP, Portal, and E-Learning platforms across multiple departments.
- Develop and deploy Python automation scripts,VBA Macri in excel and Power Automate flows to eliminate manual, repetitive IT tasks and improve operational efficiency.
- Integrate cross-platform systems using REST APIs, reducing manual data entry and improving data accuracy across departments.
- Manage and maintain Active Directory (AD) — including user account provisioning, group policy configuration, and access control management.
- Administer Windows Servers and services, ensuring reliability, security, and availability of core infrastructure.
- Perform network support troubleshooting to diagnose and resolve connectivity issues across company infrastructure, minimizing downtime.
- Handle IT support tickets through a Ticketing System, prioritizing and resolving hardware, software, and network issues in a timely manner.
- Conduct remote troubleshooting and desktop support for end users across departments, ensuring business continuity.
- Developed and regularly updated system issue documentation to support efficient troubleshooting.

Sophie's Information Technology Inc.

Jan 2024 – Mar 2024

IT Intern — Secure Development Team | Lipa City, Batangas

- Assisted in designing a Moodle LMS prototype for Ilocos University using Figma, collaborating with the Secure Development team.
- Delivered weekly project status presentations to the Developer Secure Manager.
- Independently completed and delivered the full Moodle design project on schedule.
- Studied Cybersecurity practices, Ethical Hacking principles, and SDLC methodology.

TECHNICAL PROJECTS

IoT Smart Helmet for Riders (Embedded + Web)

March 2026

- Developed an IoT-based embedded system for real-time GPS tracking via GPRS communication.
- Built a FastAPI (Python) web application to monitor, visualize, and store device data in SQLite — demonstrating full-stack and IoT integration skills relevant to system monitoring.

Uniform Detection & Fingerprint Attendance System

December 2025

- Designed an image processing system using YOLOv8 with fingerprint scanner integration.
- Developed a Flask-based web application for attendance tracking with SQLite data storage.

Intelligent Plate Number Recognition & Parking System *June 2024*

- Built a complete access control solution with UART and TCP/IP communication.
- Integrated CNN-based image processing with a web application and hardware gate control mechanism.
- Microcontroller: Arduino Mega 2560; Languages: C++, Python.

TECHNICAL SKILLS

Systems Administration: Active Directory, Windows Server, Group Policy, User Provisioning
Support & Operations: Ticketing System, Remote Troubleshooting, Desktop Support, IT Helpdesk
Automation & Scripting: Python, Power Automate, VBA Macro (Excel), Bash
Networking: TCP/IP, UART, Ethernet, GPRS, REST APIs
Enterprise Systems: SAP, MES, EMS, Moodle LMS, SharePoint
Databases: SQL, SQLite, basic database administration
Web & Frameworks: Flask, FastAPI, HTML, CSS, JavaScript
Hardware / Embedded: Arduino, IoT systems, microcontroller programming
Tools & Platforms: Git, Figma, .NET, C++, C#
Soft Skills: Problem Solving, Communication, Time Management, Leadership, Attention to Detail

EDUCATION

Tanauan City College *2020 – 2024*

Bachelor of Science in Computer Engineering (CPE) | Tanauan City, Batangas

Relevant Coursework: Software Engineering, Embedded Systems, System Development, Computer Networks

ACHIEVEMENTS & EXTRACURRICULAR

- Dean's Lister — 4th Year, 1st Semester (2023–2024)
- Dean's Lister — 3rd Year, 2nd Semester (2022–2023)
- Programming Competition Champion (2023–2024)
- Programming Competition 2nd Place (2022–2023)
- Breadboarding Competition Champion (2022–2023)
- Esports President, Invictus Animus ACCESs — 3 Years (2020–2023)

CERTIFICATIONS & SEMINARS

- The Dynamics of Cloud Computing | DICT | February 2024
- Git & Version Control Systems | Tanauan City | April 2024
- Data Analytics using Python | Tanauan City College | March 2024
- Data Center and Network Infrastructure | Tanauan City College | April 2023
- Cloud Computing for IoT Devices | Tanauan City College | April 2021
- Cyber Crime Law in the Philippines | Webinar | May 2021
